

# DEVELOPMENTAL SCALES FOR THE PUPIL GUIDANCE QUALITY AREA

# MAINSTREAM INFANT AND PRIMARY EDUCATION

# **1.** Information about the developmental scales

The Education Inspectorate evaluates quality within development scales, which consist of four development levels.

#### **BELOW EXPECTATIONS**

Several key elements can be improved.

#### **APPROACHES EXPECTATIONS**

In addition to strengths, there are also a number of points for improvement. As a result, it still does not fully meet expectations.

#### **MEETS EXPECTATIONS**

There are many strengths and no major points or areas for improvement. The whole is in line with expectations.

EXCEEDS EXPECTATIONS

There are many strengths including significant examples of good practice.

The development level "meets expectations" means that the school meets the quality expectations of the reference framework for quality in education (OK). It is the target for every school. The development level "exceeds expectations" means there is also an example of good practice. An example of good practice exceeds the usual expectations and has a positive impact on the results and effects of pupils. An example of good practice is often strongly embedded in the functioning of the school or a sub-team, is also validated and may inspire other schools or sub-teams.

# 2. The developmental scales

### L1. Broad basic care

BELOW	APPROACHES	MEETS
EXPECTATIONS	EXPECTATIONS	EXPECTATIONS
The school team does not take sufficient steps to stimulate the optimal development of all pupils. The school team does not have sufficient insight into what can promote or hinder the development of the pupils. The school team does not create a powerful learning environment and hardly implements any actions in the field of learning and study- ing, educational career, psychological and so- cial functioning and preventive healthcare that the school context and the characteris- tics of the pupil group require. The school team does not monitor the pupils sufficiently.	optimal development of all pupils. The school team is making a number of efforts to create a strong learning environment and is plan- ning a number of actions in the field of learn- ing and studying, educational career, psycho- logical and social functioning and preventive healthcare. The school team misses out on opportunities to adapt the learning environ- ment and actions to the context of the school and the characteristics of the pupil group and to implement the actions at the school and	The school team encourages the optimal de- velopment of all pupils. The school team takes into account the school context and the characteristics of the pupil group to create a strong learning environment and plan pro-ac- tive and preventive actions in the field of learning and studying, educational career, psychological and social functioning and pre- ventive healthcare. The school team imple- ments these actions at the school and class- room level and monitors the pupils systemat- ically.

#### EXCEEDS EXPECTATIONS

The school team encourages the optimal development of all pupils. The school team takes into account the school context and the characteristics of the pupil group to create a strong learning environment and plan pro-active and preventive actions in the field of learning and studying, educational career, psychological and social functioning and preventive healthcare. The school team implements these actions at the school and classroom level and monitors the pupils systematically. The way in which the school team shapes the broad basic care is an example of good practice.

# L2. Appropriate guidance

BELOW	APPROACHES	MEETS
EXPECTATIONS	EXPECTATIONS	EXPECTATIONS
The school team does not provide adequate guidance for pupils with special educational		The school team has an overview of the spe- cific educational needs of the pupils and step-
needs. The guidance initiatives are rarely based on the specific educational needs of the pupils, do not really follow a step-by-step	step-by-step guidance to ensure equal oppor- tunities is based on this. 		school.

#### EXCEEDS EXPECTATIONS

The school cooperates in a systematic, planned and transparent manner with the Pupil Guidance Centre (PGC) based on school-specific partnership agreements for pupil guidance and reinforcing the school team. The school team bases its support requests on concrete needs and on an analysis of bottlenecks. The school makes a request for assistance to the PGC if the broad basic care and the increased care measures do not suffice. The school team uses the pivotal hub of the PGC for referrals to guidance outside the school. The way in which the school team cooperates with the PGC is an example of good practice.

	for additional substantive expertise.	

#### EXCEEDS EXPECTATIONS

The school coordinates the guidance initiatives. It identifies the support needs of teachers and invests in measures, agreements and professionalization activities to shape and where necessary reinforce the actions of teachers in the broad basic care and in the increased care. The support is teacher- and team-oriented with a clear effect on teaching practice. The school team calls on the PGC, the school advisory service or any other external service or the support network for additional substantive expertise. The way in which the school team supports the actions of teachers in pupil guidance is an example of good practice.
